# TULIP

WINERY

## TULIP CABERNET SAUVIGNON

We harvest the grapes during the early morning hours, and after meticulous grape selection in the winery, we fermented the wine for 10 days in contact with the skins to release all the grape flavors. After pressing, the wine went through malolactic fermentation in barriques, then the wine was aged for another four months to ensure slow aging and optimal development. During the aging process, we added 5% Carignan and 5% of Viognier to give the wine a unique character that is Tulip's style wines.
