Mosaics for Beginners  
Instructor: Bonnie Fitzgerald

Kits and Tools:
Make it Mosaic kits were designed by instructor Bonnie Fitzgerald. For this course, students are **REQUIRED** to purchase one of the kits. A 10% discount is being extended to students for the purchase of your kit and tool.  
**DISCOUNT CODE: JUMPIN**

The workshop goal is for students to master the direct technique of mosaic fabrication. The kits were specifically designed as a place to comfortably “jump into mosaics” without concerns about ordering materials, what adhesives to use, design challenges and countless other considerations.

In addition to the kit, you will need a LePonitt wheel tool. You can easily purchase this at the time of your kit purchase, at a local stained-glass store, or on Amazon:  
[https://amzn.to/3yzVOyU](https://amzn.to/3yzVOyU)

**PLEASE PURCHASE LEPONITT WHEEL TOOL, IT IS THE BEST BUY FOR THE INVESTMENT!** Tools make our work easier and more enjoyable. Always buy the best tool you can afford.

To learn more about the kits

They range in price from $69 to $75. Images enclosed (see below).

Other recommended tools:
- Safety glasses
- Apron
- Tweezers  

Setting Up Your Workspace for Class

A note about setting up your workspace for class:  Please DO NOT use your phone as the primary viewing of the online class, desk computer, laptop or tablet will give you a more pleasurable experience. A desk lamp will be helpful.

To work along during class, you will need a covered flat surface and your kit supplies handy. This can be a temporary setup if you are doing this from your home office, cover your desktop with a newspaper. You don’t need much space; our projects are relatively small.

Any questions or concerns feel free to drop me a note: bonnie@maverickmosaics.com
