1177 B.C.: *The Year Civilization Collapsed*

In this major new account of the causes of this "First Dark Ages," Eric Cline tells the gripping story of how the end was brought about by multiple interconnected failures, ranging from invasion and revolt to earthquakes, drought, and the cutting of international trade routes. Bringing to life the vibrant multicultural world of these great civilizations, he draws a sweeping panorama of the empires and globalized peoples of the Late Bronze Age and shows that it was their very interdependence that hastened their dramatic collapse and ushered in a dark age that lasted centuries.

After 1177 B.C.: *The Survival of Civilizations*

In this gripping sequel to his bestselling *1177 B.C.*, Eric Cline tells the story of what happened after the Bronze Age collapsed—why some civilizations endured, why some gave way to new ones, and why some disappeared forever.
