

## **Small Handmade Quilt.** 2 sessions - 8 hours 2020

Teacher - Lauren Kingsland

Learn the basics of hand-stitched quiltmaking by creating a small (16" square) pieced quilt. We will talk about materials selection and use of tools including rotary cutters. We will use basic templates to create blocks, assemble them into a top, add a border, make a "quilt sandwich", stitch the layers together and bind the edges. Because the project is small, you will learn the piecing, quilting and finishing techniques used in larger quilts during a 2 session class. No sewing machine is needed in class - all work can be done by hand. (Sewing machines may be used at home in between classes). For many people, hand quiltmaking is a mindfulness practice. Stitching is an excellent chance to step away from a busy life and focus quietly on the task at hand. The portability of handwork makes it an ideal project for commuting, travel or times of waiting.
